Weather for Four States.

Washington, Aug. 7.—Forecast: Tennessee and Kentucky—Partly cloudy nd continued warm tonight and Thurs-

Georgia-Fair tonight and Thursday; ot much change in temperature. Alabama-Partly cloudy tonight and

Weather Conditions.

Moderately high atmospheric pressure entinues over the southern states east of Mississippi river. The intense heat wave is advancing slowly eastward from the central Mississippi valley. Yesterday a temperature of 106, the absolute highest on record, occurred at Washington, D. C. Low-pressure areas are centered over the upper Rocky mountain region and at Santa Fe. With the exception of a heavy rainfall at Phoenix, Ariz, the precipitation was light to moderate, occurring at widely separated stations. Considerable cloudy weather prevails over the central valleys, and temperature changes have generally been slight.

The conditions are favorable for partly cloudy weather and continued warm over this section tonight and Thursday.

Private Joe Smith.
(Special to The News.)
Gadsden, Ala., Aug. 7.—Private Joseph J. Smith is listed as wounded severely in action. He is a Gadsden man. serving in the Sixth marines. He saw service in Mexico with the marines during the trouble of 1916. He is widely known in this city and is 22 years old. He was wounded July 19. He is a son of W. W. Smith, a traveling salesman, and has two brothers in the service, Sergt. Jack Smith, with the Rainbow division, and Dick Smith, with the reg-ular cavalry now in France.

"For years my digestion was so poor that I could only eat the lightest foods. I tried everything that I heard of to get relief, but not until a year ago when I saw Chamberlain's Tablets adand the right treatment. Since tak-ng them my digestion is fine."—Mrs.

'ROUND THE TICKER"

(Furnished by Nate N. Silverman, 20 Montague Building, Phone Main 6245.) The official weather map shows few tions of the cotton region. The hurri-cane which bored inland over western Louisiana does not appear to have been a very big storm, being small in diameter, and, like all small storms, it moved very like all small storms, it moved very fast and was soon over.

The weekly reports are bullish on the whole, and indicate that deterioration, generally speaking and taking in the entire belt, continues. Texas is very bad and so is Oklahoma. Georgia reports some deterioration and also weevil activity in the south; Alabama shows up fairly well, but complains of rust and shedding. Mississippi is fairly good, and so is Ar-kansas, except for complaints of shedding. The Carolinas are good, but Louis-iana reports indifferent conditions. Tem-ple, Tex., wires from Navsota to Bremond and thence to Waco the crop is burnt up. Hot winds blew yesterday. There is a great deterioration here and to the north. Detailed weather reports show only five wet stations in Texas. The weather bureau says: "The tropical dis-jurbance has moved northward over western Louisiana, and has apparently lost its intensity in an area of low pres-sure which overlies the plains states and the southeastern Rocky mountain region." Texarkana wires: "Having good rain Texarkana wires: 'Having here and through east Texas. be going west; cloudy at Dallas. Hurricane over, Texas still dry

SHEPARD & GLUCK. . Chicago, Aug. 7.—Kankas, Nebraska and Miscouri complain of heat loss, but the central west expects a huge crop of record-quality corn. No. 5 mixed corn is \$1.57. Temperatures clear over the seven surplus states were 26 to 104. Many Au-NEW YORK PRODUCE.

Locals bought corn on the dip, but senliment is conservative. Reported a sprinkie of rain at Omaha. Toledo reports cash onts weak and farmers hauling corn. E. W. WAGNER & CO.

New York, Aug. 7 .- The news of the morning presents no important changes in conditions affecting the market, unless it be that this widespread heat wave may harm some of the crops. It will also operate to continue trading within very narrow limits, a condition which the banking world also thinks wise to estabthe present. On the prospect of very early ratification of the railroad contract and on the favorable character of corporate reports of edrnings, with prospects that the tax will be known in prospects that the tax will be known in outline within a few days, the long side of the market seems the logical one, especially if any sensational specialty movement? unsettle prices generally.

COTTON OPENS WEAK WITH PRICES ON DECLINE EFFECT ON CORN MARKET

New York, Aug. 7.—There was a very sharp break at the opening of the cotton market today, first prices being weak at a decline of 59985 points under realising. Early weather advices indicated that the tropical storm had pretty well subsided without causing any damage in the in-terior, while the lower temperatures in the northwest encouraged hope of show-ers in the western belt soon. These fea-tures probably led to reselling by some who had bought to cover shorts yester-day and there was also some sailing here lies and then by new sags.

Seaboard demand gave firmness to oats. After opening ¼ to %6% c lower, with September 68% 165% c, prices ascended to above yesterday's finish.

Strength of hog quotations made provisions relatively steady. Sales of hogs were reported at within 5 cents of the highest level ever known.

Prices closed unsattled the 176% of the highest level ever known. day, and there was also some selling here for southern account. After the initial break to 28.70c for October and 28.60c for January, however, the market was ex-

of some 20 to 45 points in expectation of a bullish weekly report.

Offerings increased on the early rally and the market broke very sharply after the publication of the weekly weather report, which read more favorably than expected. There were also reports of rain in Texas, and for a long time there seemed to be very little support, with October selling off to 28.18c and January to 27.55c, or 117 to 125 points net lower. The detailed weather report showed precipitation at only a few stations along the coast or in northeast Texas, however, and prices showed railies of 10g20 points around midday on covering.

The rally of some 30 or 40 points from the low level of the late forenoon met increased offerings on further private reports of rain in Texas and the market was irregular, with October ruling around 28.33c and January 27.81c, or about 29%, 101 points net lower, during the middle of the afternoon.

New Orleans, Aug. 7.—With the tropical storm dissipated before it could move very far into the belt, the cotton market opened lower today and felt heavy selling during the first half-hour of trading. Prices fell 75 to 83 points. The reaction was due in a great measure to liquidation of long contracts, and the action of the market was considered satural and

wide advances.

The market turned quiet, with less selling pressure. At 1 o'clock prices were \$26101 points under the close of yester-

rom Texas telling of threatening weather in that state, which bearish traders took to mean that the chances were good for the breaking of the drouth. In the trading up to noon the decline was widened to 1136/122 points.

NEW YORK COTTON FUTURES

New York, Aug. 7.—Cotton futures opened weak: October, 22,306;28,79c; December, 28,206;28,00; January, 27,306; 28,06c; March, 28,006;28,15c; May, none.

Following up the reports from baby xamination week, government health examination week, government health nurses, including Miss Bessie Sewell, Mrs. Will Hoge and others, are visiting the homes and advising the mothers where the cards show that the children are not cialist from the army post who had served in three similar campaigns is re-ported as saying it was the most suc-cesful one he was ever in.

OBITUARY

G. M. ATKINSON, WHO WAS HURT, DIED EARLY TODAY

Wednesday morning in a pocar included it was at first thought that his injuries it was at first thought that his injuries. The were not of a serious nature. The body was removed to Wann's funeral.

News has been received here of the death of Mrs. J. C. Kirkpatrick's sister, Mrs. L. A. Putman, which occurred at Fort Worth, Tex., on August 6. Mrs. Kirkpatrick has many friends in Chattanooga who will regret to learn of

fever. He is survived by his parents, five brothers and six sisters. Funeral services were held Wednesday after-noon from the residence, with McGill cemetery as the place of interment.

Funeral services over the body of Richard Ashrworth, veteran employe of the C., N. O. & T. P. railway, who died Monday night at 7:30, will be held from Wann's chapel, 708 Georgia avenue, Thursday afternoon at 2, with Rev. Bales and Rev. King officiating. The interment will take place in Forest Hills cemetery, with four sens, Albert, J. F. J. R. and Walter Ashworth, and two grandsons, Charles and Richard Brown, of the deceased, acting as pall-

tinuously held important office longer than any other official of Nashville, died at 12:45 o'clock yesterday afternoon. He was 76 years old and, although past the allotted three score and ten, was very active almost up to the time of his death. For some days prior to his illness he was suffering from an acute attack of diarrhea and this, it is supposed, coupled with severe pains experienced in his head, superinduced an posed, coupled with severe pains ex-perienced in his head, superinduced an attack of paralysis.

WAR SUMMARY

(Associated Press.) Artillery duels and patrol actions continue along the Vesle front while the allies and Germans make ready for future operations. Indications

port is that the Germans will shorten their lines on the western front for the special purpose of gaining more manpower, from lack of which they are reported to be suffering seriously. Intense bitterness has marked what little fighting there has neen between Soissons and Rheims. The American forces in Fismes and north of the river have been subjected to heavy bombardments from cannon and machine guns, but held on. West of Fismes Tuesday a German Sattalion prepared to attack American bridge builders along the Vesle. The entire force was wiped out by American machine gunners.

ners.

In Picardy the Germans have struck back at the British, who have been slowly improving their positions astride the Somme, South of Morian-court the Germans have recovered the British advance trench lines along the Bray-Corbie road. Berlin says 100 prisoners were captured, but the fighting continues, London reports.

British troops at the apex of the German salient in rlanders have pushed forward their outposts still farther on a front of 2,000 yards in the Pacaut wood. Prisoners were cap-

the Pacaut wood. Prisoners were captured by the British.

American troops in the Woevre have repulsed two German raids. On the remainder of the western front there has been no activity. Heavy artillery duels are in progress on the Italian mountain front and in Macedonia.

France has becomed the allied com-

mountain front and in Macedonia.

France his honored the allied commander and victor in the present offensive by making him a marshal of France. Gen. Foch is the second to gain this distinction in his war, Marshal Joffre having received it for his victory in the battle of the Marne. Gen. Petain, the French commander, has been given the military medal by his government.

men oversean would be continued according to the program now in effect for the present. The chief of staff entered into a general discussion of the necessity for amending the present law. Questioned by senators regarding the apparent "change of front" of the war department in its war program, Gen. March told of the government, action in accord with the Paris

tension of the draft ages is necessary.

Vote Aug. 26 on Prohibition,

The prohibition controversy may hold up consideration of the draft bill.

Under the unanimous consent agreement, wartime prohibition is to be taken up when the senate reconvenes, with a final vote on Aug. 26. This can only be set aside by unanimous consent, and Senator Sheppard, of Texas, prohibition leader in the senate, expressed the opinion today that a unanimous consent and Senator Sheppard of texas, prohibition leader in the senate, expressed the opinion today that a unanimous consent agreement could not be obtained unless the draft bill can be taken up and disposed of with practically no debate.
